

EASTWOOD SHOPPING CENTRE

SEEKING COMMUNITY FEEDBACK

Eastwood's New Cultural and Community Heart

**A vibrant urban village celebrating
community, culture and connection**

We are seeking community feedback on the proposal to redevelop the Eastwood Shopping Centre at 152-190 Rowe Street and 3-5 Rutledge Street, Eastwood.

The Eastwood Centre redevelopment will transform the existing shopping centre into a vibrant mixed-use heart of the community. It will deliver diverse housing, refreshed retail, and better pedestrian connections – all while honouring and celebrating Eastwood's multicultural heritage.

The renewed Eastwood Centre will be a lively cultural hub that builds on the area's much-loved Asian dining, food and neighbourhood feel. With community, cultural celebration and every day liveability at its core, the redevelopment will create a unique, networked neighbourhood making Eastwood an even more welcoming and thriving place to live, work, shop and connect.

PROPOSAL DETAILS

The renewed Eastwood Centre is proposed to feature:

- Around 780 apartments of varying sizes – great for locals and also meets Government housing targets
- 5% on-site affordable housing managed by a registered Community Housing Provider
- Up to 20,875 sqm of refreshed retail and commercial space, with supermarkets, fresh-food markets, restaurants and flexible spaces for events and festivals that build on Eastwood's food culture.
- Up to around 7,500 sqm of shared amenities.
- New activated laneways and a direct pedestrian link connecting Rowe Street Mall to Rutledge Street.
- Around 1,500 basement parking spaces will serve residents, visitors, workers and shoppers.

We value your feedback – it will help us create an even better outcome for Eastwood.

PLANNING PROCESS

The redevelopment is being undertaken by the shopping centre owners, Henbon Australia. The Eastwood Redevelopment Project Team is seeking feedback from the community and stakeholders about the masterplan and concept designs, ahead of lodging a State Significant Development Application (SSDA) and a concurrent rezoning application.

The proposal is being assessed through the Housing Delivery Authority (HDA) pathway. The NSW Government established the HDA to help deliver 377,000 new homes across the state by 2029, in line with the National Housing Accord. The HDA provides a streamlined planning pathway for well-located projects to be assessed as State Significant Developments, improving consistency and timeframes without compromising quality or design.
